

ENGINEERING+ Session: September 22nd @1pm over Zoom (Zoom link TBD)

BMES Club aims to involve and bring together students interested in medical applications to their studies. We want to involve students of all disciplines because this is a multidisciplinary area; including mechanical, biological, electrical, chemical engineers, pre-med students, undecided, etc..

- BMES Design Teams - Prosthetic hand & Modular Bioreactor System.
- Events throughout the year: Student Faculty mixers, Lab tours, Conferences, Scientific discussions, Social activities (BBQs, Relay for Life)
- Get involved and learn about research/internship opportunities through other students.
- If interested, Contact our Publicist: Tegan Thurston
thurste@oregonstate.edu OR join our list serve on the SLI database.
